Annual Report 2016

Centre for Clinical research Sörmland
(CKFD)

UPPSALA
UNIVERSITET

Introduction

Our main research event, the Research and Development Day, was held in Eskilstuna on the 19th of April and attracted close to 100 participants from our medical-, health- and dental care. The most research permissive clinic selected in the County this year was the Lung & Infection Clinic. The event was opened by the Chair of the County Council, Åsa Kratz. This provided a very strong signal that the politicians in the County of Sörmland highly prioritize research activities. Furthermore, the research priority was highlighted at the yearly Stipend Ceremony Banquet on the 7th of November. For the first time, everybody having their PhD in 2016 was invited to the Podium to receive their stipend and celebration from the audience. I consider this to be very important moment since this procedure now becomes a new standard in the Stipend Ceremony Banquet onwards.

On the 2nd of September, for half a day, the County Council invited CKFD to give presentations on our research unit, as well as selected researchers in Sörmland were presenting their research projects. This was all very appreciated by the politicians in the Main Hall in Nyköping.

Over the year four women and one man defended their theses'. Their occupations were doctors (three) and physiotherapists (two).

During the year we had nine lunch seminars who were located in both Mälarsjukhuset and in Nyköpings lasarett. This large number of seminars also initiated an interest for web broadcasting.

The prior goal for CKFD this year was to build our own strategy including our vision, mission and goals. From County of Sörmland it was communicated that there was a need that CKFD would become even more "visible and noticed" at all various levels in the County. We have therefore improved our communications at all levels, e.g. to the politicians, to the County Board, to the division board, to the clinic board and, regardless of their professions, to all our co-workers. This broad approach was decided by the CKFD and I was also elected for a permanent position in the County Board.

Mission

CKFD visualizes and supports the county's clinical research projects, and continuously works to improve their conditions.

- Our Hospital libraries are a resource whose knowledge contributes to raising the employees' skills in their daily work.

-Our social medicine mission is to prevent future illness in the population of Sörmland.

Vision

All employees in Sörmland, regardless of their professions, will be given the opportunity for research and developmental activities. Clinical research should be an obvious part of all medical-, health- and dental care.

Goal

We work to provide the patients with the best evidence-based medical-, health- and dental care in order to make them healthier. The CKFD also operates to improve disease prevention activities through our health surveys.

Eskilstuna in 2016

Abstract

Peterson G

Altered ventral neck muscle function in chronic whiplash compared to neck healthy controls.

An ultrasound investigation.

World Confederation for Physical Therapy (WCPT) congress 2015, Singapore. Poster presentation 150502

Peterson G

Differences in coordination of ventral neck muscles for individuals with whiplash-associated disorders and healthy controls.

World Confederation for Physical Therapy (WCPT) congress 2015, Singapore. Poster presentation 150502

Jernbro C, Otterman G, Tindberg Y, Janson S

Maltreated children's trust in adults and the association to quality of life and psychosomatic symptoms

BASPCAN Congress in Edinburgh, April 2015

Abstracts 2016

Annerbäck EM

9:e nordiska konferensen om Barnmisshandel och Omsorgssvikt i Stockholm 2016

"Mobbning i Sverige - Bakgrundsfaktorer och samband med självrapporterade hälsoproblem"

Björksved M

Forskningsrapport/ föreläsning vid Ortodontiassistent konferens 21-22/4 2016 Hotell Clarion Sign, Stockholm

Björksved M

Posterpresentation på Nationellt Forum för Odontologisk forskning 25-26/4 2016, Malmö

Fredriksson Kaul Y

Smooth pursuit eye movements at 4 months are associated to IQ at 6 ½ years in very preterm boys

Posterpresentation: 3/4-3/5 2016, Pediatric Academic Society kongress, Baltimore

Fredriksson Kaul Y

Point of peak velocity during reaching at 8 months is associated with ratings of attention and hyperactivity at 6 ½ years in children born very preterm

Posterpresentation: 3/4-3/5 2016, Pediatric Academic Society kongress, Baltimore

Liljeroos M, Stromberg A and Chung M

Patients and caregivers symptoms of depressive symptoms mediate the relationship between perceived control and well-being. E J Cardiovasc Nurs. Vol 15, Issue 1_suppl, 2016, EuroHeartCare 2016

Liljeroos M, Stromberg A and Chung M

Do patients and caregivers perceived control impact depression and well-being in patients with heart failure and partners? E J Cardiovasc Nurs. Vol 15, Issue 1_suppl, 2016

Montgomery C

Motor Performance during the first year in very preterm infants later diagnosed with cerebral palsy or autism.

Posterpresentation: 3/4-3/5 2016, Pediatric Academic Society kongress, Baltimore

Nordgren, L. & Söderlund, A.

Impact of encounters with healthcare professionals on perceived ability to return to work in

people on sick leave due to heart failure. EuroHeartCare 2016. 15-16 April 2016. Aten, Grekland.

Association between pain extent and health status in whiplash associated disorders. Congrès douleur SSED Nov 25, 2016 à Lausanne, Schweiz.

External grants 2016

Innovationsstipendium	200 000 kr
AFA	656 000 kr
Linköpings universitet	120 000 kr
Uppsala universitet	220 000 kr
Svenska Läkarsällskapet	115 000 kr

Courses – Education 2014-2016

1) Introduction to Scientific Methods (a 3,5-day course):

6 occasions 2014-2016	125 participants
-----------------------	------------------

2) How to construct enquires (a 1,5-2-day course):

2 occasion 2014 -2016	18 participants
-----------------------	-----------------

4) Methods in qualitative research (a 4-day course)

2 occasions 2014-2016	10 participants
-----------------------	-----------------

6) Evidence-based caring (a ¾-day course)

1 occasion 2014-2016	11 participants
----------------------	-----------------

8) Scientific Writing (5 lessons à 2 h)

3 occasions 2014-2016	19 participants
-----------------------	-----------------

9) Research seminars (1 h)

19 occasions 2014-2016	624 participants
------------------------	------------------
